ASSOCIATE PROGRAM

Our Associate Program is a 25 to 40 week comprehensive hands-on experience that provides training in the areas of technical skills, guest handling and business building. Our Associates work with one dedicated service provider to grow into a skilled technician. Like our service providers, our Associate Program has a performance based system. Each level has specific skill sets that are the focus of training for that level only. With each level jump there is a raise in pay and the opportunity to move up to the next level. The salon provides an environment for growth, learning and support. It is our commitment that every associate graduates from our program with a seamless transition from associate to stylist with the skills necessary for success in our industry. We pride ourselves with our culture of honesty, integrity, trust and friendship. We are always on the lookout for potential associates. We are looking for individuals with passion, eagerness to learn and willingness to be trained and coached.

INTERESTED IN APPLYING FOR OUR ASSOCIATE PROGRAM?
